

# MultiOpt

MultiOpt is a strategy development, automation, walkforward and data analysis tool for TradeStation.

With MultiOpt you can apply any strategy to multiple symbols and time frames, generate in-sample and out-of-sample optimization and walkforward results, and then filter through those results to select the best market candidates for trading.

## Highlights

- Accelerates strategy building
- Rapid strategy prototyping
- Applies any strategy to **multiple symbols, time frames and walkforward period** combinations
- Automates Kevin Davey's Strategy Factory process
- FAST - Multi-core, Multi-threaded for speed
- Performs In-Sample and Out-Of-Sample analysis
- Built-In Monte Carlo analysis for both In-Sample and Out-Of-Sample time periods
- Supports inter-market strategies with multiple data streams
- Performs walkforward analysis on one or more walkforward scenarios
- Many different fitness functions available for walkforward process
- Performs optimization across multiple variables
- Supports TradeStation's 3rd party custom symbol data
- Reports on many performance metrics
- Provides ability to export results to spreadsheet programs, such as Excel
- Many video tutorials on use and function
- Generates EasyLanguage strategy code with optimized walkforward parameters for real-time trading
- Forum for discussions and collaboration with other MultiOpt users
- Email support directly from the developer!
- Mailing list for new releases and updates (<http://eepurl.com/hdevH5>)
- And much more!

## Trial Version

Download a fully functional 14-day trial version from MultiOpt's website here: <https://multiopt.net>

## Purchase

The cost of MultiOpt is a license fee of \$450. This includes one year of user support and software updates. You may try MultiOpt for a 14-day trial period. Add-on's, when available, are covered under their own licenses and separate costs.

Send payment via wire transfer (email [admin@multiopt.net](mailto:admin@multiopt.net) for details), or PayPal using the following link:

<https://www.paypal.me/multiopt/450>

After sending payment, please email [admin@multiopt.net](mailto:admin@multiopt.net) your TradeStation Customer ID. Your Customer ID this is not your account number. It be found on the TradeStation Help->About screen and is used for your MultiOpt registration.

If you have multiple TS customer IDs and would like to run MultiOpt on each, you can purchase additional licenses at a 20% discount of \$360 per additional TS customer number.

If you have multiple TS logins under the same TS customer ID, you may install and run MultiOpt *under the same license on multiple machines without purchasing additional licenses.*

## Support

- User support directly from the developer
- Connect with other MultiOpt users on Kevin Davey's Strategy Factory Forum
- User manual documentation
- Video tutorials
- Sign up for MultiOpt's mailing list for new releases and updates at <http://eepurl.com/hdevH5>

## Testimonials

*MultiOpt has transformed the way I design, develop, and test trading strategies across various markets and bar sizes. It has saved hundreds of hours of manual effort and uncovered new trading ideas for me. I find Dave's expertise in software development and foresight for user needs integrated seamlessly in MultiOpt. His prompt, friendly, and to-the-point responses to my questions help me use MultiOpt to its fullest potential. With MultiOpt's capabilities and Dave's approachability, I see myself progressing well as a rule-based trader.*

RD (United States)

*I have only been doing this since May and I purchased MultiOpt in June. This amazing software has allowed me to plow through 60 different strategies, each with about 3-4 variations of exits and has yielded 11 strategies that I am incubating right now. Dave is a master programmer, and he has also helped me get the most out of the software whenever I had a question. It may be the best money I've ever spent.*

Brandon K. (California, US)

*I can tell you as a beginner here and a very skeptical person that MultiOpt saved me hundreds of hours of work. I need to find one good strategy and this is helping. I don't care if 1000 of my ideas bomb... Nice job Dave, your work is amazing!*

Berkeley W. (Jena, Germany)

*What I just did in 5 minutes used to take me almost a whole day! Thanks! You're fantastic!*

Berkeley W. (2 weeks later)

*I'm having a great time with your MultiOpt... I've found so many programs [strategies] to submit to the club with many left over for my private incubation! Thanks, thanks, thanks!*

Berkeley W. (2 months later)

*My Man, when do you EVER sleep? :) This new version and options are mind-blowing! Thank you!*

Alan B. (Michigan, US)

*I've read through your documentation and can't imagine the number of development hours you must have in this. It's such a polished piece of software and the way you have automated Kevin's methodology is remarkable. I just watched your two videos on your new version of MultiOpt. I've watched hundreds of training videos and you do the very best instructional videos I've ever seen.*

John D. (Arizona, US)

*Thank you again for your great work with MO. It has saved me hundreds of hours of work and thousands of clicks to have all those tasks automated.*

Antonio J. (Spain)

*It would be hard to go back to not having it [MultiOpt], worth every penny and more. A long time ago I had tried out a software called "Unfair Advantage", MultiOpt would have made better use of the name :)*

Jason D. (Florida, US)

*I just want to say I love your tool and think you are a genius. Honestly this is fantastic.*

Ryan M. (Pennsylvania, US)

*What a wonderful tool you have built. With this addition of montecarlo it has become more useful and what a time saver. Kudos to you. I don't know how you guys tested before multiopt.*

Zumran H. (Indiana, US)

*I am a new student with Kevin's SF. I've watched your tutorial videos and webinar, as well as read through the manual. I think you have a fantastic product and I'm really excited to start using it!*

Dustin H.

*I've enjoyed very much using MO and signing up with SFW and purchasing MO are the best investments I've ever had.*

Daniel O.

*I absolutely love your program. Makes life so much easier. Plus everything works so smoothly. Great piece of software.*

Robbert Z

*Thanks for the wonderful application that you have created, it has been a great help with the entire process.*

Janus H.

*I'm LOV'N the new version of MultiOpt! I SERIOUSLY can't think of doing research without MO!!!!!!*

Alan B.

*This is pretty killer, really nice job! I work in the Software industry (I run Customer Success for a 75 person company) so I know that you have put a ton of work into this, it really did come out fantastically. And while running it through its paces, I created a pretty good Crude system out of Kevin's 30 min gold system. :-)* This is going to be so helpful me, thank you! I was literally doing a lot of this by hand. Thanks so much!

Mark H.

*Thanks for a really informative tutorial and users manual, the software is really powerful and will spare me a lot of hours for manual walk forward testing...*

**Hans J.**

*MultiOpt is amazing. Easy to use... faster than TS walkforward... I've been impressed.*

**Shaun L.**

*What an amazing software, sincerest congratulations again from the bottom of my heart!!!*

**Jem Y.**

*Thank you Dave, MultiOpt is a great piece of software. It certainly simplifies the Walk Forward process.*

**Bill S.**

*Thanks Dave. And you have the passionate in this. I really appreciate your effort that make our life easier.*

**Eric N.**

*Thank you for developing MultiOpt. After just a few days of use, I can see the amazing value.*

**Mike A.**

*I now have 38 strategies that are/have (1) logically consistent and make sense from a market psychology perspective, (2) simple and as concise as possible, (3) passed simulated incubation as of 1/1/2019. So I want to first offer you a MASSIVE THANK YOU for creating MultiOpt, as this work would've taken a million years without it.*

**Mark J.**

*First of all I'd like to thank you for this brilliant piece of work. MultiOpt now is the top application I use on my PC. Now I can focus on ideas, rather routine testing. Thanks a lot for saving us time.*

**Roman Z.**

*I took the Strategy Factory workshop by Kevin Davey and he suggested that we get MultiOpt, a testing software that he himself uses. Multi Opt is a time saver allowing me to test my strategies on multiple time frames and a myriad of symbols without much of an effort. It is actually a very easy piece of software to learn and use. Dave has created a video tutorial that guides you step by step. Dave is very responsive to questions or comments and is a very likable person. It really is a no brainer acquisition.*

**Lydie T. (California, US)**
